Commr. of Land Revenue.

Read the following paper:-

Letter from A.G. Blake Esq., I.C.S., Collector of Bella

Ref.C.No.5988/36 B-1 dated 28th July 1937.

Buildings - Government - Hospet taluk and town - electrification - estimates and plans - submitted.

--

Ref:-Board's R.No.600-37-1 dated 29-1-1937 and the subsequent reminders thereon dated 1-5-1937 and 23-6-1937.

In my reference Roc.No.5988/36 B-1 dated 18-1-37,

I had submitted plans and estimates for electric installat

the several Government buildings in the Hospet Town. References made to the heads of the offices noted in the margin show that the electric installation proposed by the Electrical Engineer is not necessary in as much as the clerks in those offices do not habitually work after dark. The District Superintendent of Police, Bellary to whom a reference was made about the electric installation in the town and cusba stations and in the office of the Inspector of Polic at Hospet, says that the arrangements for Electric fans will have to be omitted from the estimates as ordered by the Inspector-General of Police and that revised estimates for lights alone would be sent shortly after necessary funds are provided in the final list of demands for Police Minor Irrigation Works in the civil works estimate for 1938-39. As this will take some time I have not submitted estimates and and plans in respect of these items. As regards electric installation in the Range office at Hospet the District Forest Officer, Anantapur says that the Conservator of Forests, Bellary is not in favour of it. The question of electrification of the Range office will be dropped finall

1. Forest Range Office.
2. P.W.D.Sub Divisional office.
3. District Munsiff's office.
4. Sub Registrar's office.

2. The estimates and plans in respect of the marginally noted offices are submitted herewith after

countersignature as required. The Excise Inspector reports that the clerks in his office work after sunset habitually. The clerks in the offices of the Sub Collector, Tahsildar Stationary Sub Magistrate will be obliged to work after sunset continuously for about two months in a year at the time of Jamabandi and occasionally during the remaining part of the year. Electric lights are quite essential in the subjail.

Electric installation - Bellary -
Hospt Town - Govt. offices -
Board's Rep. No. E 605/37-3 d/ 8.5.37

CM. 3862. C. 37.1. dated 20.9.37

Govt observed that the estimate for electric installations in the Taluk office at Hospt provides for 1 light in the Treasury and 4 fans in the remaining portion of the building. It is not clear how a few fans can be of use to clerks working in the office after dark during seasons of heavy work such as the famine and period etc or how the one light in the Treasury will help them much.

2. Hospt should not be hot for long in the year and it appears that the provisions made for fans is somewhat liberal; also the number of subsidiary lights to burn all night could be limited since others can be switched on & off for guard inspection purposes.

3. The Board of Revenue is requested to have the whole scheme re-examined carefully in the light of the above remarks & submit revised proposals.

From (Name) F. Sayers, Esquire, C.I.E.,
(Designation) Inspector-General of Police, Madras.

To The Secretary to the Government of Madras,
HOME Department.

Sir,

I have the honour to forward herewith for the approval of the Government plans and two estimates for Rs.180/- and Rs.120/- for the electrification of Taluk (Cusba and Town Police Stations respectively at Hospet in the Bellary District.

2. Work in these stations has to be carried on habitually after dusk and the provision of electrical installations therein is, I consider, necessary.

3.

3. The proposal involves an additional expenditure of Rs.173/- per annum (Rs.70/- in the case of Hospet Taluk (Cusba) Police Station and Rs.103/- in the case of Hospet Town Police Station) - vide comparative statement of cost attached to the Estimates.

4. The work will be carried out by the Public Works Department and the cost met from the lump sum grant for Police Minor works in the Civil Works Estimate for 1938-1939.

To the Secretary to Government, Public Works Dept., (with revised plans and estimates)

Memo No 28815/38-19 22.6.38

Buildings - Bellary Dt - Hospet - Govt Buildings - Electric installations - Proposals.

Boards' Ofce E. 600/37-6 dt 22.4.1938

The following modifications have been suggested in the proposals for the provision of electric installations to the undermentioned offices at Hospet Bellary Dt :—

(1) The Sub Collector's Office.

A ceiling fan has been proposed for the Head clerks' room. It has been suggested that a table fan will be adequate.

(2) The Sub Magistrate's Office.

A ceiling fan has been proposed for the "clerks' room" in this office. It has been informed that only one clerk works in that room and that the other work works in the record room. It has been suggested that a table fan will be adequate for the clerks' room

Certain modifications have been suggested and information on some points is required in reference to the proposal for the electrification of certain of the undermentioned offices in Hospet, in the Bellary district.

(a) on Plan I.

It is presumed that only one or two clerks work in the room and the necessity for a fan in this room has not been established clearly. It is usual to provide fans in rooms in which one or two clerks work.

(b)

when no lights have been proposed for the record rooms attached to the Taluk office and the Sub Collector's office, has not been explained.

2. The Board office is requested to offer its remarks on the ~~points~~ referred to in para 1 above ~~and to submit~~ and to submit revised estimates and comparative statements, cutting down the initial and recurring expenditure to the lowest figures possible.

3. The Board is also requested to report (1) the number of clerks working in the main room for clerks in the Taluk office and the number working in the other room adjoining the record room, ~~and also~~

Letter from J.W. Pritchard Esq., I.C.S., Collector of Bellary, Roc. No.988/37-B.1 dated 20-8-38:-

Buildings- Government- (Bellary)- Hospet Taluk and Town- Electrification of Government Offices- report- submitted-

--

Ref:- Board's Refce. E.No.600/37-8 dated 4-7-38.

I inspected the Sub Collector's office, the Stationary Sub Magistrate's office and the Taluk office at Hospet. I offer the following remarks and suggestions:-

Para 1 (1) of Government Memo:- A table fan will suffice for the Head clerk's room of the Sub Collector's office.

Para 1 (2) of Government Memo. The clerk's room of the Stationary Sub Magistrate's office has to accommodate four persons, three clerks and one co ist. It will be

very sultry during summer and a ceiling fan is therefore necessary.

Para 3 -1 of Government Memo. Seven clerks are working in the main room for clerks in the Taluk Office and four clerks in the other room adjoining the record room.

Para 3 (2) of Government Memo. Three clerks and one copyist are working in the clerk's room of the Stationary Sub Magistrate's office.

Para 3 (3) of Government Memo. There is no private room for the use of the Stationary Sub Magistrate in his office and he is using a portion of the record room for this purpose. Hence a light has to be provided for in the record room. In this connection, I submit that the provision of lights in the record rooms of all the three offices referred to above, is really necessary, as records have to be taken out of the record room, even after night fall on several occasions.

Taking into consideration that the initial and the recurring expenditure have to be cut down to the lowest figure possible, I would suggest the following modifications.

Taluk office. Wall plugs may be provided in the Inspector's room (now used as Tahsildar's room) and in the record room with one table lights to serve both better. A light is essential in the Tahsildar's room, as the Tahsildar has to work often after sun set. A table light is the most suitable form for record room, as it is impossible owing to the obstruction given by the racks, to place a ceiling light so as to illuminate all parts of the room properly.

Sub Magistrate's office. Wall plugs may be provided for the record room and for the light over the Magistrate's ~~dias~~ dais in his Court room with one table light to serve both.

Sub Collector's office. Wall plugs may be provided for the light over the Sub Divisional Magistrate's Dais and for the record room with one table light to serve both. The provision of a light in the passage may be omitted. Only one fan is enough in the clerk's room, as it is a small one. A table fan can be used for the Head clerk's room, as stated above.

I would further suggest that there is little point in installing fans at present, as current is only available from 4 P.M. It would be better, however, to do as much as possible of the wiring now, so that they can be easily installed easily installed later on when current becomes available inday time.

I am adaressing the Electrical Engineer Madras for sending revised estimate and comparative statements in the light of the above suggestions and I shall submit them soon after their receipt from him.

--

II.

Letter from W. Scott Brown Esq., C.I.E., I.C.S., Collector of Bellary, Roc. No.5988/36 dated 7-12-38:-

Sub:- Buildings- Government- Hospet taluk and Town- electrification of offices- plans and estimates- revision-

Board's R.C.E. 600/37-9 dated 6-10-38.

--

I submit herewith revised estimates, plans and comparative statements received from the Electrical Engineer, Madras, duly countersigned. In the light of experience gained in checking similar comparative statements in the Public Works Department Secretariat I consider that 1000 as far too high a figure for average

average hours per light per annum in the Taluk Office Excise Inspector s office. It could safely be reduced to 500 or even less with a corresponding reduction in the total extra cost. Provision for fans and the wiring connected with them has not been made in the present estimates as current is not available till 4 P.M. These can be provided later when current becomes available during day time.

Reference:-

Submitted to the Government with reference to their Memorandum No.2881-D/38-1 Revenue dated 22-6-38.

2. The Board recommends that the revised estimates for the provision of electric lights only, may be

1,502—27-9-87.

Electric Installation - Bellary -
Hospet taluk & town. Non residential
buildings - Proposals

From the Bd of Rev Rep E 600/37-3 dt 18-8-3

The Board of Rev has submitted proposals for providing electric installations in the following offices. at Hospet -

		Estimate Rs	Increase in recurring Rs
(1)		750	140
(2)	Taluk office	540.	211
(3)	Sub Magistrate's office	480.	119
(4)	Sub Jail ~~Hospet~~.	230.	558
(5)	office of the Inspector of Excise	420	245.
		2420	

The comparative statements showing the increase in recurring cost at pp 5, 7, 9, 11 & 13 call for no remarks except in the case of the statement for the Sub Jail - p 11 - where ~~at~~ the ~~lights~~ average ~~of~~ of the portable no of working hrs per day for all the eight lights is taken to be 11 hrs ~~It is presumed that in actual working all the lights will not be kept burning through out the night~~.

2. The proposals may be approved. A draft order is submitted. It may be

Home

Sent to Rev & Fin for acceptance.

KLw
2/9

1/ The proposals strike me as rather careless. How, for example, will a few fans in the Cabinet Office help the clerks to work after dark during January &c. The light in the Treasury must help them much.

2/ Hospitals should not be lost for long in the year. The provision for working of fans seems on the liberal side.

3/ Again I should have thought that the no of such fans & lights to them all might could be limited since the others can be switched on for ground inspection purposes.

This file relates to the electrificat of certain buildings in Hospet, ~~Bellary~~ St. One of such buildings is the Excise Inspections office. In O.M. No 2993 D/37-1 dt 3-8-1937 the Board was informed that no expenditure should be incurred in connection with the construction or hiring of new buildings for the Excise Dept In O.M. No 3181 D/37-1 dt 9-9-1937 the Board was informed that the above orders covered not only the construction of new buildings but also, by way of ~~improvements~~ additions & or electrification of existing buildings.

In view of the instructions referred to above, it does not appear that the proposal for the electrification of the Excise Inspector's office can be approved.

Through 'G' as regards the other Revenue buildings.

2. Electrification of the Taluk office and the Sub Collector's office at Hospet.

Please see the note at page 4 ante and the plans at (M) and (L). No remarks are called for on the number of lights and fans proposed for the two offices. The proposals may be accepted in this Dept.

3. The file may be passed on to Finance through Home which is concerned with the electrification of the Sub Magistrates' office at Hospet.

Plans in (V)

Fans on Taluk office 4 · 5
Sub Collr's office 5 · 7

p 28 of 84 at p 54 ante

Plans 2 in file at p 44 ante

Sub. Collr Office.

A ceiling fan has been provided for the Head clerks room. [Occasionally the magt. clerk or one other clerk works in this room]. A table fan will be adequate. The other items are absolutely necessary and no reduction will be possible - [the passage light is very necessary]

(L)

(removed cell)

Tr. Office.

A ceiling fan has been proposed for the Hd Accts' room. The shroffs also work there and as the accommodation is limited in the building. occasionally somebody or other works in the room in addn to the T.H.A & the shroffs. A ceiling fan is necessary. The other items are the minimum requirements & cannot be curtailed

(M)

(new cell)

S.S.Mi Office.

There is no need for a ceiling fan in the "S.S.Mi clerks room". If I remember right only one clerk uses to work in the room and the other uses to occupy the record room. However the facts should be verified. Note The BO should be asked to ascertain & report the no of clerks working in the "clerks room" and whether a table fan with reduced adequate also why a light has been proposed for the record room. When no lights have been proposed for the record rooms attached to the Tr Office and the Sub. Collr Office.

2. Put up a memo to the BO on the points above

Finance are bound to ask the same questions and we might as well have the matter cleared up in advance. (Incidentally ask for the No. of clerks working in the main room for clerks in the Office and the no. working in the other room adjoining the recess room — a favourite question of Finance's.) After this they may be desired by A.S. w.r.t. the Excise Buildings.

14/6.

To A.S.

A draft Memo of the Bd. of Res. is submitted for approval. [Home Dept. may see on receipt of reply with refce. to the S.S.M.'s office.] After this, file may be sent to Secy

electrification of Court offices and sent to their Deptts. Attention is however invited to G.O 877 P.W.D 27.4.37 in which the Govt approved the proposal to electrify the Sub Magistrate's office at Kuddapah, Madura &c. Six fans were sanctioned for that office but the particulars regarding the rooms in which they were to be installed are not available as the plans and estimates relating to the proposal have all been returned to the Chief Engineer.

2. It is understood from the P.W and Finance Deptts that the practice followed at present is not to allow a fan where only one or two clerks work in a room, unless there are exceptional circumstances e.g. when clerks working in record room.

In regard to the proposal for the electrification of the S.M's office, Vellore, no case has been proposed by the Collector either for the clerks' room or for the record room.

The Boards' reply to the Memo at p. 22 of

REVENUE DEPARTMENT.

* * *

2. If I remember right no fan or light was proposed for the record room in one of the offices in Hospet. Was it because electric installations in a record room increase the risk of fire? When Finance agree to a table fan for a record clerk it is not clear why they should object to a fan for the Minor Irrigation Supervisor - more superior in status to a clerk.

T.M.S.M. 2/7.

2. With reference to para 2 of the Under Secretary's note above it is submitted that a light was proposed by the Collector for the record room in the Stationary Sub Magistrate's Office, Hospet though none were proposed for the record rooms in the taluk and Sub Collector's offices at the place. The Board of Revenue has therefore been requested to explain the necessity for a light in the record room in the Stationary Sub Magistrate's Office.

~~(Finance may see w.r.t. para 1 in my note above)~~ Para 2 could be taken up after the Board's reply is received in the linked file.

T.M.S.M. 5/7/38.

Hyd 24.27 cf [From the S Ref ± 20 600/37-10 9 & 1.38]

To us

Please see the memo at page 22 cf. and the Board's reply to it at pages 24-27 cf. In this letter on pp 26-27 cf the Collr has stated that provision for fans and the wiring connected with it has not been made in the power estimates as current is not available till 4 P.M. The Board recommend that the revised estimate for the provision of lights only may be approved. The estimates in respect of the 3 offices referred to are at pages 1, 5 and 13 of (X) and they are for Rs 210, Rs 165 and 200 for the Taluk office, S.S.Rs office and Sub Collr's office respectively and may be accepted. The file may be returned to PWD thro' Finance.

2. In the estimates provision has been made for electric installation in the office of the Superintending Engineer, No action is necessary in view of the note at 5-6 ante.

~~May be perused and~~ The file

~~file~~

This section is concerned with the electrification of the S.S.M's ~~Room~~ Office at Hospet, Bellary Taluk. The Board's original estimate provided for ~~3~~ fans and 4 lights. As required by the Finance Dept the Revenue Dept called for certain information and revised estimates from the Board. The Board have now, while submitting revised estimates ~~proposed~~ in view of fact that current is not available until 4 P.M., dropped the question of providing fans and has submitted proposals for installing 4 lights, namely one single light pendants ~~each~~ for the court hall, the ~~court hall~~ S.M's private chamber and S.M's clerk's room and one table or hand lamp for use over the Nagles

dais and in the record room. The annual (recurring) saving by the electrification is worked out as Rs 7/-. The Rev. Deptt has accepted the proposal. This Deptt may agree with them and pass on the file to the Fin Deptt

Finance (S.I.)

(Pages 26-27 c.f. and notes from page 13 ante alon need be seen.)

The case relates to the provision of electric installation to certain Government office buildings at Hospet. The estimates have been prepared for the provision of electric lights only as electric current is not available till 4 p.m. The following statemen shows in one view the details of the proposal:-

Details of Buildings.	Estimated cost of electric installation.	Extra cost(+) or saving(−)	No. of lights proposed.	No. of plugs proposed.
(1)	(2)	(3)	(4)	(5)
	Rs.	Rs.	Rs.	
1. Taluk Office.	210	+45	5(+1 table light)	2
2. S.S.M's Office.	165	- 7	3(-Do-)	2
3. Excise Inspector's Office.	180	+41	5	Nil.
4. Sub-Collector's Office.	200	+1	5(+1 table light)	2
5. Kasba Police station.	180	+70	5	Nil.
6. Town Police station.	120	+103	3	Nil.
Total.	1,055	+268	26(+3 table lights)	6

3. Wall plugs are proposed, one for the officer's room and the other for the record room of the respective offices so as to facilitate the use of a table light for the rooms where necessary. As separate lights have not been provided for these rooms, the wall plugs proposed may stand.

Parmal is requested of the notes of the Rev, Home & Fin depts on pp 12-16 ante

2. The revised estimate submitted by the Board includes provision for the electrification of the Excise Inspector's office. Revenue do not seem to approve of this provision but Finance have accepted the proposals in their entirety.

3. A draft order approving the proposals (other than the one relating to the Excise Insp's Office) is put up. Revenue may perhaps see again with reference to Bahons and para 3 of the draft.

in the O.Ms mentioned above, Can be relaxed only in Special Cases, this dept may adhere to its previous ~~note~~ remarks Para 3g the draft order may be accepted and the Case returned to Pt I.
